

# When You're Sleeping

[Natalie Imbruglia](#)

The sun came up, desperate, desperate  
The stars above held you back once again  
Half way here, half way here, they whisper  
You talk so much sense  
When you're sleeping, when you're sleeping  
And you share all the secrets  
And the mystery when you're sleeping  
I saw your tears, violet, violet  
And it's been years  
The sky's been crying for you  
I found out beautiful things about you  
You talk so much sense  
When you're sleeping, when you're sleeping, yeah  
And you share all the secrets

And the mystery when you're sleeping  
So you go and wonder where you wander  
Lose yourself to take us higher  
And I'll be waiting for you when you're down  
You talk so much sense  
When you're sleeping, when you're sleeping, yeah  
And you share all the secrets  
And the mystery when you're sleeping  
You talk so much sense when you're sleeping  
When you're sleeping, yeah  
And you share all the secrets  
And the mystery when you're sleeping
