Lite My Fire

One Voice

I've been looking for someone who could do me like the way that you do.
I've searched high & low but boy you know, I only wanna give it to you.(Hook)
Don't you wanna get back with me?
Baby maybe we can start all over again (I want you)(Chorus)
You lite my fire ooh
Ain't no one flyer than you
You lite my fire ooh
Ain't no one flyer than you.You can't tell me that you haven't thought 'bout all the times we shared
All those other females you messed with you know they don't compare.(Hook)
Don't you wanna get back with me?
Baby maybe we could start all over again (I want you)(Chorus)
You lite my fire ooh
Ain't no one flyer than you
You lite my fire ooh
Ain't no one flyer than youCan't no, can't no body body
Can't no, can't no body
Can't no, can't no body body
Do me like you do
(Repeat)Chorus out
