You Know I Will

Lucas Grabeel

There's a hill we gotta climb
There's a treasure we must find
The two of us as friends
We're ready to take on a world
We'll see who can touch the sky
We'll see who can jump that high
Every day is an adventure
We're ready to take on the worldAnd through all the ups and downs
I'll always be around
You know when nothin' goes your way
When nothin' goes you way(CHORUS)
You know I will
I'll stand between you and your darkest fears
You know I will
I'll be the shoulder for your fallen tears
You know I will
I'll be behind you 'til your in the clearWhen the sunlight shows his face
You can believe we take our place
We're legendary heroes
We're ready to take on the world
So then let the chase begin
If we go we both will win
When we're havin' fun
There's no place in the worldAnd if you slip and fall off track
I'll carry you on my back
You knnow when nothin' goes your way
When nothin' goes goes you way(CHORUS)
You know I will
I'll stand behind you and your darkest fears
You know I will
I'll be the shoulder for your fallen tears
You know I will
I'll be behind you 'til your in the clearAnd through all the ups and downs
I'll always be around
You know when nothin' goes your way
When nothin' goes you way(CHORUS)
You know I will
I'll stand behind you and your darkest fears
You know I will

I'll be the shoulder for your fallen tears
You know I will
I'll be behind you 'til your in the clearYou know I willOhhh yeahOhhh ahhhWoah
