

Love Deh

Collie Buddz

Girl, Iâ€™ve been thinking about you lately
And all of the places Iâ€™ll take you, baby
And it takes a lot to break me
Donâ€™t worry about the circumstances, lady

Because, I know, that you know
That we should be together
And just like the rain fall
Nothing change but the weather

â€™Cause you know, that I know
That things could be much better
Girl, just come, give me your love

Girl, just give me your love deh, love deh
Girl, youâ€™ve got me weak
Give me that love deh, me a search for
Me look for, me a seek
(Me love your body, shape, me love ya, chat when ya speak)

Give me that love deh, love deh, girl
Youâ€™ve got me weak
That type of loving make me complete

Girl, just give me your love deh, love deh
Girl, youâ€™ve got me weak
Give me that love deh, me a search for
Me look for, me a seek
(Me love your body, shape, me love ya, chat when ya speak)

Give me that love deh, love deh, girl
Youâ€™ve got me weak
That type of loving make me complete

And ya know, sista
Come, let we take it to another level
'Cause ya calm, we well cool
Well comfortable

And from the first time when we link up

Never miserable
Me love you like my steam fish and my
Vegetable, ayo

Out a road, itâ€™s only you me a check for
The way you put it on me, girl
I couldnâ€™t forget, no
Me, no carry no feelings that

I woulda regret, no
So make we come and
Bust out the sweat now

Girl, just give me your love deh, love deh
Girl, youâ€™ve got me weak
Give me that love deh, me a search for me
Look for, me a seek

Give me that love deh, love deh, girl
Youâ€™ve got me weak
That type of loving make me
Complete

Girl, Iâ€™ve been thinking about you lately
And all of the places Iâ€™ll take you, baby
And it takes a lot to break me
Donâ€™t worry about the circumstances, lady

Because, I know, that you know
That we should be together
And just like the rain fall
Nothing change but the weather

â€˜Cause you know, that I know
That things could be much better
Girl, just come, give me your love
