

# Was It the Right Thing to Do

Auryn

One foot on the plattform, one on the train  
I wanna be taken somewhere, somewhere far away  
I know when I get there I'll be missing you  
Was the right thing to do?  
Was the right thing to do?Everybody thinks I'm crazy, but my time here's at an end  
Everything around me's changing, I'll be coming home again  
Maybe it's just a fear of everything I could lose  
Was the right thing to do?  
Was the right thing to do?  
Where do I go from here, where do I go?  
So far away from home, I left you so long ago  
Was it the right thing to do?  
Was it the right thing to do?  
Was it the right thing to do?Looking to find emotions in a unknown place  
I'll be saving all my stories to give to you one day  
Maybe you'll hear me on the radio, maybe you'll see me on the news  
Was it the right thing to do?  
Was it the right thing to do?Where do I go from here, where do I go?  
So far away from home, I left you so long ago  
Was it the right thing to do?  
Was it the right thing to do?  
Was it the right thing to do?  
Was it the right thing to do?Where do I go from here, where do I go?  
So far away from home, I left you so long ago  
Was it the right thing to do?  
Was it the right thing to do?  
Was it the right thing to do?Was it the right thing to do?Was it the right thing to do?  
Was it the right thing to do?  
Was it the right thing, the right thing, was it the right thing to do?
