It's A Hit

We Are Scientists

I should have known that this would happen from the start
This kind of function's going to have to fall apart
I guess before I would have sworn that we were friends
And in this problem must award some logic trendWell, I still don't understand what this whole thing's about
And all the words that you said are somehow stuck in my mouth
This was going so well, but I don't know what I did
All I really can tell isIt's a hit
It's a hit
It's a hitWell, there's only so much drama I can stand
This is just about as far as I will bend
So get your hands off my lapel because I think it's time to go
You ought to know that or you ought to knowAnd I still don't understand what this whole thing's about
And all the words that you said are somehow stuck in my mouth
This was going so well, but I don't know what I did
All I really can tell isIt's a hit
It's a hit
It's a hitAs I was falling down the stairs and out the door
Yes, I heard you yell my name, but I'm not sure
You know, before I could have sworn that we were friends
Somehow that's how these parties always seem to endWell, I still don't understand what this whole thing's about
And all the words that you said are somehow stuck in my mouth
This was going so well, but I don't know what I did
All I really can tell is that
I always get hitWell, I still don't understand what this whole thing's about
And all the words that you said are somehow stuck in my mouth
I guess I might take it back, but I'm not sure what I did
All I know for a fact isIt's a hit
It's a hit
It's a hit
