

Help Yourself (OST "Girl - Yeah, Right!")

Death in Vegas

You can't change without someone's shadow
Cause then it's gone when you still shine
You can't change to solve somebody's name
Don't blink until you're made When all you're still, you broke all in Hell
And you don't need what you could steal
I'm feeling like something I don't know that's wrong
And I know the sad in my heart Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself when you don't need it
Help yourself Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself with what you need, yeah
Help yourself out
Help yourself when you don't need it
Help yourself
