

Singled Out

A*Teens

When I wake up in the mornin'
Before I style my hair
The first thing on my mind
Is I hope he cares And every single evenin'
Before I hit my bed
My mind analyzes
Every word she says It seems like everybody's got someone
A hand to hold and a soul to touch
I want it all so much I can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of time I can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled out If I only had the courage
To open up my heart
Would he run, would he hide?
Would he light a spark? Should I walk up to her?
Should I throw a charmin' smile?
Should I say that her eyes
Light up my skies? Seems like everybody's got someone
A hand to hold an' a heart to touch
I want it all so much I can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of time I can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled out Every single day
I see these couples walkin' by
And if I took a chance
Maybe I could be one of them If only I could have you as the one
The hand that I could hold, the soul to touch
The heart that I control I can't get you, I can't get you
I can't get you off my mind I can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could

Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outI can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outI'm feelin' singled out
