# Name On It

## Dustin Lynch

There's a four by four, blacked out four door
Ice cold six pack in the floorboard
That's got my name on itHot little chick, cherry bomb red lips
Sitting shotun, fresh tat on her hip
That's got my name on itDressed up looking like money
Headed in from the countryChorus
It's gonna get wild tonight
Gotta get that mixture right
DJ and a dance floor
Cant stop, we want more
There's a good time going down
And a getting loud rowdy crowd
Last call at three in the morning
That's got my name on itIt's almost time, there's a sold out line
Through the parking lot 'round the marquee sign
That's got my name on itShooting down that golden brown
Charcoal whiskey made in a town
That's got my name on it
Lights down, amps turned up
Everybody raise your cupRepeat Chorus
Guitar SoloThere's a beer in a bucket
Waiting on me to shotgun it
That's got my name on itRepeat Chorus
