

Sail into the Sun (Sam Padrul Remix)

Gentlemen Hall

I'll take the sun and watch it surround you
All of the rain will follow all around you
And I, I'll pull you closer when you're floating far away
And I, don't need no reason we'll just get away When we sail into the sun, into the sun
Sail into the sun, into the sun I'll make the clouds a carpet and canopy
Won't touch the ground, I'll stay up here just you and me
And I, I'll pull you closer when you're floating far away
And I, don't need no reason we'll just get away When we sail into the sun, into the sun
Sail into the sun, into the sun When we finally get there, will we ever leave?
Will we find that all we have is all we really need?
All you gotta do is get there, miles above the ground
We can fade away without a sound Oh, no, show me how to get away and go
Go, I don't want to do it on my own
So, find a way to get you all alone
We're going home And we sail (Sail) into the sun (sun), into the sun
Sail (Sail) into the sun (sun), into the sun
When we sail (Sail) into the sun (sun), into the sun
Sail (Sail) into the sun (sun), into the sun
