

Anything Is Possible

Matthew West

She said, "Dear Matthew, I spent most of my life in a downwards spiral, it's true
Always feeling like there was just no way out, no matter what I've tried to do
When I finally hit rock bottom, when I heard them lock me up behind those bars
And it kills me to say I gave birth to my daughter there"
And in that moment it wrecked my heart But I found that you can find hope

In the hopeless places
And when you're hanging at the end of your rope
Man, that's where grace is Anything anything anything is
Anything is possible

I believe that the one I believe in
He is the God of the impossible
'Cause love can fix a busted heart like mine
Put it back together every single time
Turn my mess to a miracle

Anything is possible She said, "Fast forward six years later
And then sometimes I still can't believe my eyes
I went back to school, I got a job and a new house
God has blessed me with a beautiful life

And I look at that little girl every morning when I wake up
And those eyes are so blue that they are the proof that no matter what never give up." Anything anything
anything is

Anything is possible
I believe that the one I believe in
He is the God of the impossible
'Cause love can fix a busted heart like mine
Put it back together every single time
Turn my mess to a miracle

Anything is possible Just when you thought it never could
Love's working all things for the good
So lift your eyes up to the one who makes a way

Where there was no way She said, "Matthew, that's my story and I'm sticking to it
It ain't perfect but it must be told

'Cause there is somebody out there with the odds stacked against them
So write my song and let them know." Anything anything anything is
Anything is possible

I believe that the one I believe in
He is the God of the impossible
'Cause love can fix a busted heart like mine
Put it back together every single time

Turn my mess to a miracle
Anything is possibleAnything is possible
Anything anything anything is
Anything is possible
Anything anything anything is
Love fixed a busted heart like mine
Anything anything anything is
Anything is possible
Anything anything anything is
