

# Island

## Mastodon

Given decision to live  
Not taken  
The flight towards the light  
I'll stay in the lava for life  
Erupting when gods take us all  
Changing the peaks makes us pour  
From the mountain and burn  
The path of our time  
Hail people of Iceland  
Journey of a land anew  
Ram as our liaison  
Vision inspire and move  
Awe holy island  
Breed the lagoon to run free  
Raw beauty is ruthless within the golden ring  
Precision of Grungir  
Spear of the Norse God Odin  
Praise our Pagan Father  
Founder of the Althing  
Given decision to live  
Not taken  
The flight towards the light  
I'll stay in the lava for life  
Erupting when gods take us all  
Changing the peaks makes us pour  
From the mountain and burn  
The path of our time  
Ruler of sky's thunder  
The honorable warrior  
All divination  
Beware the Hammer of Thor  
Lava goddess  
Ice and fire  
Settling down  
Ocean Geysir  
Gullfoss
