

# I'm So High

Sam Adams

[Hook]

And I'm ok baby, I'm just fine  
And I must step back, and close my eyes  
I can't see the ground cause I'm so high  
I'm so, I'm so, I'm so high That's just the way it goes,  
Rock bottom watching my inspiration fold  
Thrown in the game, no warm-up but I ain't cold  
Transition from ice cold to luke warm  
Wanna feel my story homie come and put my shoes on  
Yeah, cause since the beginning people been hatin'  
when I see 'em I'm just grinnin' (What up haters)  
Grew up in the city blowin' Ls while we winnin'  
You know I'm going just had as hard, in the ninth inning  
As the first

Thanks Boston for Raisin' me  
thoughts clear with a splash of complacency  
Sammy Adams the prey of the agencies  
'less it's Ari Gold, homie get the fuck away from me  
Waitin' on the game so patiently  
Living life styles that you would think were make believe  
Never stole a swag, bit a line, none of this  
I only did me, thinking how I could become the shit [Hook]

And I'm ok baby, I'm just fine  
And I must step back, and close my eyes  
I cant see the ground cause I'm so high  
I'm so I'm so I'm so High So high, dodging jets straight, straight yay flow (zoom)  
No pipe dreams, getting pesos  
But I'd rather get love, get besos,  
Tracks on repeat, girls asking who makes those  
Give a damn if your boys don't like me  
I'm on track now like Nike, almighty,  
If you get money just tend to it politely  
If you get bars, beating me is unlikely  
Always had a chance  
You never had a glance  
I'm the cool kid in the meetings,  
When others would piss they pants  
Head up in the clouds, sophisticated stance  
While my body's in the office, supplyin' their demands

And every hour in the booth that I'm getting paid for  
Wonder why it's dark outside, and where today go  
Cause it's easy to get your name known,  
When everything you're recording is straight fuego And I'm ok baby, I'm just fine  
And I must step back, and close my eyes  
I can't see the ground cause I'm so high  
I'm so I'm so I'm so High
