

# Best Day Of My Life

Jesse McCartney

I woke up around a half past 10  
Can't believe that I'm late again  
I put down about a quart of caffeine  
To start my pulse and then I grab my jeans off the floor then I hit the door  
Just the same old same  
It goes to show you never know  
When everything's about to change Just another day, started out like any other  
Just another girl, who took my breath away  
Then she turned around, she took me down and  
Just another day then I had the best day of my life I can't say exactly what it was  
She's not the usual type  
She wore a cowboy hat with her red Prada boots  
And a Gwen Stefani smile Then she pulled out a pen and surprised me  
When she wrote her number on my hand  
Then she was gone but from now on  
I'm gonna be a different man, 'cause Just another day, started out like any other  
Just another girl, who took my breath away  
Then she turned around, she took me down and  
Just another day then I had the best day of my life I guess it goes to show  
You never really know  
When everything's about to change Just another day, started out like any other  
Just another girl, who took my breath away  
Then she turned around, she took me down  
And just another day then I had the best day of my life  
The best day of my life, the best day of my life  
The best day of my life
