

# Don't Show Up (if You Can't Get Down)

[Darryl Worley](#)

Well, tonight there's a party in the making  
And by now word is out all over town  
Just one rule, the only stipulation  
Don't show up  
If you can't get down

We've been known to play some funky music  
It never fails to always draw a crowd  
We insist that everybody here be groovin'  
So don't show up  
If you can't get down

Come on in pretty mama  
Sure feels fine  
Leave your worries and your cares behind  
And let us help you, baby  
Turn it loose  
The house is rocking girl and so are you

Come on in everybody  
Sure feels fine  
Leave your worries and your cares behind  
Get your party on  
And do your thing  
You won't find a better place to hang

Man I love the way this joint is hopping  
The way you're shaking it may crumble to the ground  
We ain't scared  
And there ain't nobody stopping  
So don't show up  
If you can't get down

I said  
Don't show up  
If you can't get down
