

# Master Plan

Adam Lambert

You run away from everything that you fear  
So afraid don't wanna be a part of it  
You see the fake in every thing that is real  
You hate the paradox  
You put us in the box We don't define what makes us right or wrong  
Waste of time and we're just livin' it  
I wanna see you, touch you, one-on-one  
Won't stop until we're done  
We've only just begun [Chorus]  
We are the face of a new generation  
We are the ones who have no reservation  
Don't give a damn 'bout your cold calculation  
Welcome to the Master Plan  
Don't care if you understand  
Don't care if you understand  
Welcome to the Master Plan Your skin is burning at the sight of me  
Your mask can't hide what yer thinkin'  
Don't as (Don't tell)  
Just take whatcha need  
I'm an open book  
So go on and take a look We are the face of a new generation  
We are the ones who have no reservation  
Don't give a damn 'bout your cold calculation  
Welcome to the Master Plan  
Don't care if you understand  
Don't care if you understand  
Welcome to the Master Plan There's you  
There's me  
I feel your energy  
I hope you'll see  
Things ain't what they used to be  
Look at the face We are the face of a new generation  
We are the ones who have no reservation  
Don't give a damn 'bout your cold calculation  
Welcome to the Master Plan  
Don't care if you understand  
Don't care if you understand  
Welcome to the Master Plan Don't care if you under  
Welcome to the Master Plan

Don't care if you understand
