# Confessions

## Bleed The Dream

You were supposed to bleed with me
Sometimes these things just happen
Before you take it way too far
You gotta know that this will never happenChorus:
Confessions
They're so dull
They'll only kill you one by one
So just go
Cause you know
I'll do it again and againYou know there's only second trust
We've waited for so long
You're not so easily impressed
How am I supposed to get out of this oneI'll take what's mine and won't go away
And with a face like yours you don't need a heart
So go ahead, say what you wanna say
'Cause I'll close my fist and this will never happenChorus:How am I supposed to get out(x2)
How am I supposed to get out of this oneMy body and soul(x2)
Was chosen
My body and soul(x2)
Was chosenChorus:
