

Love Invincible

Michael Franti

When I fall down, I need a helping hand.
And when I lose my head, it's cause it's buried in the sand.
When I get stuck on myself, feelin' sorry for myself.
Will you help me grab a hold and please don't patronize my soul.
When I start to lose control, when I get irrational,
When I start to get too high, you see me come floating by, I say Touch me in the morning sun, when I feel impossible.
Show me what is possible, teach me love invincible.
Touch me in the morning sun, when I feel impossible,
Show me what is possible, teach me love invincible. When you're down, you need a helping hand.
And when you lose your head, I'll help you wash away the sand.
And when you get stuck on yourself, feelin' sorry for yourself.
I will help you grab a hold and I won't patronize your soul.
When you start to lose control, when you get irrational,
When you start to get too high, I see you come floating by, I say Touch me in the morning sun, when I feel impossible.
Show me what is possible, teach me love invincible.
Touch me in the morning sun, when I feel impossible,
Show me what is possible, teach me love invincible. c'mon now x3
Show me how to feel it
C'mon now x3
Show me how to feel it. When we're down, we need a helping hand.
And when we lose our heads, it's cause they're buried in the sand.
When we get stuck on ourselves, feelin' sorry for ourselves.
Will you help us grab a hold and please don't patronize our souls.
When we start to lose control, when we get irrational,
When we start to get too high, you see us come floating by, I say, Touch us with the morning sun, when we feel impossible,
Show us what is possible, teach us love invincible.
Touch us with the morning sun, when we feel impossible,
Show us what is possible, teach us love invincible.
Touch us with the morning sun, when we feel impossible,
Show us what is possible, teach us love invincible.
