

# Summertime

[Diana Ross](#)

Summertime when will you come  
I wanna put my light things on  
I wanna put my winter life away  
Summertime I need a sunny day I want those peaches on the table  
I want the watermelon red  
And the warm sun creeping through the window  
To ease me out of bed I want the sand out there to lie on  
And the sea out there to swim  
So my heart can take a holiday  
From breakin' over him Summertime when will you come  
I wanna put my light things on  
I wanna put my winter life away  
Summertime I need a sunny day And I want to drive forever  
Wanna roll the windows down  
Get the breeze back on my body  
Get my feet back on the ground I want the sand out there to lie on  
And the sea out there to swim  
So my heart can take a holiday  
From breakin' over him Summertime when will you come  
I wanna put my light things on  
I wanna put my winter life away  
Summertime I need a sunny day
