GOTTA GET YOUR LOVE:
Written By: GABE LustmanI got a pocket full of change
I see you looking my way way
and no I don't wanna wait
I wanna get you all alone lonewe been dancing thru the night
I cant let you get away
tell me can you feel it in air
if you're down just come with meI gotta get your love (all over my body)
I gotta get your love (if it takes all night)
cant let you get away
cuz I need it
I gotta get your love love love love love
I gotta get your lovela la la la
I gotta get your love love love love
I gotta get your love love love lovewhat do I gotta do (what do I gotta do)
your love has a hold on me (love has a hold on me)
I cant wait any longer (so lets go)
tell me why we shouldn't leave right nowwe been dancing thru the night
I cant let you get away
tell me can you feel it in air
if you're down just come with meI gotta get your love (all over my body)
I gotta get your love (if it takes all night)
cant let you get away
cuz I need it
I gotta get your love love love love love
I gotta get your lovela la la la
I gotta get your love love love love
I gotta get your love love love loveI don't see a way
of us not leaving together
imma take you to a place
where we can both be free to get it onwe been dancing thru the night
I cant let you get away
tell me can you feel it in air
if you're down just come with meand give me some love love love
give me some love love love
all of your love love loveI gotta get your love (all over my body)
I gotta get your love (if it takes all night)
cant let you get away
cuz I need it

I gotta get your love love love love love
I gotta get your love
