

Stay

Rex Goudie

A tide Inside your heart
Keeps rising in the dark
Surrounds you like an ocean
And you can't keep from going under
Somewhere in the deep
I find you half asleep
'Cause I will never leave you
And I will not forsake you I will stay..... Here with you while you fall
I won't say..... Anything, anything at all
I will stay When all the empty words
Won't take away the hurt
And everything is broken
All the wounds are open, I'll be here
A shoulder you can cry on
A friend you can rely on
In between the shadows
No one else will follow I will stay.... Here with you as you fall
I won't say.... Anything, anything at all
