Inside Out

PureNRG

(Inside out)
You know me, I know You
I want my life to show You
This love is no secret
And I don't wanna keep it
Locked up in my heart
(Inside out)
I need You to turn meInside out, upside down
Backwards, forwards, turned around
Take this life here and now
Fill me up and pour me out
I want to feel the change
Within without a doubt
So turn me inside out(Inside out)
When I get distracted
Worn out and disconnected
So far from perfection
Point me in Your direction
Make this fire burn
(Inside out)
Only You can turn meInside out, upside down
Backwards, forwards, turned around
Take this life here and now
Fill me up and pour me out
I want to feel the change
Within without a doubt
So turn me inside out(Inside out)
Lord, let me feel the change
Let Your love pour down like rain
I want Your love to turn me inside out
So turn me inside, turn me inside outInside out, upside down
Backwards, forwards, turned around
Take this life here and now
Fill me up and pour me outInside out, upside down
Backwards, forwards, turned around
Take this life here and now
Fill me up and pour me out
I want to feel the change
Within without a doubt

So turn me inside outHey, turn me inside out
Turn me inside out
