

This is Anarchy

Tacocat

Smash the state, dirty plates,
sleep all day so I can stay up late

This is anarchy

Just can't do the daily grind
Finally found somethin' I can get behind

My crust fund pays my rent,
gotta show the world my discontent

This is anarchy

Someone else will have to clean this up,
minimum wage at a job that sucks

Make a molotov cocktail, throw it in the living room
He who doesn't have a floor, doesn't need a broom

Spray paint walls, tag it all,
scratch a swear into a bathroom stall

Well, this is anarchy

Can't let the man keep me down,
gonna throw a brick through every window in town

My crust fund pays my rent,
gotta show the world my discontent

This is anarchy

Throw a benefit while I'm in jail,
my dad's too pissed to post my bail

Make a molotov cocktail, throw it in the living room
He who doesn't have a floor, doesn't need a broom

Spray paint walls, tag it all,
scratch a swear into a bathroom stall

Well, this is anarchy
