

No More Heartbreak

Jean B. Gerbier

No more heartbreak

I

I never knew loving like I am loving you now.
You are the only woman that thrill me so much.
You got what it takes to get along.
I've been missing you for a long time, I think I
still love you, because of your love dedication to me.

Chorus

No more heartbreak, despite heartful heartbreak you'll always be mine.
No more heartbreak, the way I sleep with you making love to you.
No more heartbreak, Nothing about me will be the same.

II

She look at me and told me love is all true, but
something in my heart is telling me that, you are seeing somebody else.
If not I know someday you will come back and give me all the loving that I deserve.
