

# Revolt

## Antabus

This is the trench that never surrenders  
Fighting the front attacking their nest  
All out, holding our flag

All out, ruling our pathOur revoltThis is the trench that never surrenders  
This is a strike that targets an answer  
Heads up, confronting the task  
Heads up, we're wearing no maskLook inside the truthIt's our revolt  
It's our revolt
