

# How I Needed You

## Puggy

Safe from them all  
Those evil little motherfuckers at my door  
Yeah, well I've kept score  
And I believe they owe me more than life is short  
Do you remember when nobody knew me?  
Man, was life so simple then  
But you knew my name and Lord knows  
It will never sound the same again  
I will stay with you  
I will stay with you  
How I needed you  
How I needed you  
How I needed you  
I needed you  
I needed you  
Well, a long time ago  
That night we had was my only claim to fame  
Yeah, we were only friends  
And girl, you took away from us our happy end  
So I will stay with you  
I will stay with you  
I will stay with you  
How I needed you  
How I needed you  
How I needed you  
You've taken from me everything in the world  
I needed you  
I needed you  
I needed you  
I hate you more than I hate everything in the world  
Well, I do, I said, I do  
You've taken from me everything I deserve  
Well, it's true, yeah, it's true  
I hate you more than I hate everything in the world  
Well, I do, well, I do  
You've taken from me everything I deserve  
Well, it's true, well, it's true  
You've taken from me everything in the world  
I needed you  
I needed you  
I needed you  
I will stay with you  
I will stay with you  
How I needed you

How I needed you  
How I needed you
