

What Have We Done

Ben Jelen

What have we done x6
Snow falls in September
April feels like December
Has hope left here forever
Open up our narrow minds
Why do we hurt each other?
We all bleed this in color
Can't we help one another?
Open up our narrow minds
(open up our narrow minds)
What have we done
(what have we done)
Why do we watch the world that we have wasted
How long till we all erase it
What have we done
(what have we done)
Can't you see?
It's time for picking up the pieces
Before the ground just falls beneath us
Open up our narrow minds
We vote for someone to trust and
In the end we pay the price for them
We all need to be unbroken
Open up our narrow minds
Smoke fills the air we're breathing
We'll choke until the end is nearing
Don't we know it isn't clearing
Open up our narrow minds
(open up our narrow minds)
What have we done
(what have we done)
Why do we watch the world that we have wasted
How long till we all erase it
What have we done
(what have we done)
Can't you see?
It's time for picking up the pieces
Before the ground just falls beneath us
Why are we confused
The warning's are true
This world is used
And we all need to
Open up our narrow minds
(x4)
What have we done
(what have we done)
Why do we
What have we done
(what have we done)
Why do we watch the world that we have wasted
How long till we all erase it
What have we done
(what have we done)
Can't you see?
It's time for picking up the pieces
Before the ground just falls beneath us
(what have we done)
We vote for someone to trust and

In the end we pay the price for them
(what have we done)
We all need to be unbroken
Open up our narrow minds(how long till we all erase it)(what have we done)
Smoke fills the air we're breathing
We'll choke until the end is nearing
(what have we done)
Don't we know it isn't clearing
Open up our narrow minds(before the ground just falls beneath us)Open up our narrow minds(x3)
