The Power

Freddy Curci

(feat. Dizzee Rascal)

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

I wanna party â€TMtil my last breath â€TMtil there ainâ€TMt no air in my lungs left
I wanna party to death, in the club â€TMtil Iâ€TMm old
Like Hugh Heff, switching other girls like "whoâ€TMs next?―

Yeah, we got a ride, switch it up like brunette
Look at Michelle, Kerrie-Ann and Juliette
Do I get involved? Yeah I bust a lil' 2-step, you bet
I'm just gettin' started, I ain't through yet

I'm looking for a girl with a body like an hour glass She can shake her body on my body while I tap her She ain't gotta be a high class, just a nice arse I just wanna see her rock her hips around the beat fast

Now I need a top up, gimme something for my beer glass
I don't give a ras', anything to make the night last
Now I'm feeling high on my rocket, ain't no stopping when I fly past

Money in my pocket, you ain't gotta ask

How we feeling
Oh ahh yeah
Now everybody put your hands in the air
Clap those hands and sing it with me

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute You go hour after hour We can't get this party started Until we have got the power

You go minute after minute
You go hour after hour
We can't get this party started
Until we have got the power

Let's get it

Girls on the right, fellas on the left
Party 'til your death, party 'til your last breath
Finger in the air if you couldn't care less
We're gonna party all night, we don't want no rest

Girls on the right, fellas on the left
Party 'til your death, party 'til your last breath
Finger in the air if you couldn't care less
We're gonna party all night, and everything'll be Fresh

We can't get this party started

You go minute after minute
You go hour after hour
We can't get this party started
Until we have got the power

You go minute after minute

You go hour after hour
We can't get this party started
Until we have got the power
