

Scary

Lindbergh Palace

He says that he left you
But we both know what's really true
It takes a toll on you
Scary

Caught in between
Lipstick and an old routine
Take off all the clothes that you're wearing

Make myself, wild
And walk outside into the night
Make myself, wild
Make myself, high

Now it's over and you're one day older
Understanding that your heart is colder
Go to him, go to him, go

Boys believing you
Trouble seems to notice you
Your body follows through
Scary

Make myself, wild
Make myself, wild

Now it's over and you're one day older
Understanding that your heart is colder
Go to him, go to him, go

Now it's over and you're one day older
Understanding that your heart is colder
Go to him, go to him, go
