

Goodbye July

[Tim Chaisson](#)

What would you do if I kissed you
What if I said those crazy words
Would it be just the like the movies
Where the underdog gets the girl

I can't help but wonder
What in the world keeps bringing you here
How do we get this close to something
This time, every year
Waking up to the waves crashing
Putting out the fire at my feet
Goodbye July, goodbye July
Not gonna let this happen
You don't get burned if you stay outta the heat
Goodbye July, goodbye July

Why do my hands shake and shiver
Under this Carolina sun
Taking my finger off the trigger
I can't do it, I'm done

I just can't seem to tell you what's been on my mind
Sometimes it's better to keep the dream alive
