

# Steadfast In You

Jenny Phillips

We believe and we understand  
This great plan we are living  
We will rise and we will stand  
We can feel your love burning within us

And we will be steadfast in you  
Steady and true  
Abounding in the good works that you sent us here to do

Like a million stars lighting up the night  
We are your youth  
Ever strong Ever true  
Ever steadfast in you

We will be true to you  
We're on your side and we'll never move  
We set our sights on eternity  
Until that day when we meet you  
In your glory

We will be steadfast in you  
Steady and true  
Abounding in the good works that you sent us here to do

Like a million stars lighting up the night  
We are your youth  
Ever strong Ever true  
Ever steadfast in you

Like a mighty army moves the Church of God  
Steadfast we are treading where the saints have trod  
Steadfast in you  
Steady and true  
Abounding in the good works that you sent us here to do

Like a million stars lighting up the night  
We are your youth  
Ever strong Ever true  
Ever steadfast in you  
We are your youth

Ever strong Ever true  
Ever steadfast in you
