Down Easy

Noe Venable Trio

just let me down easy
just let me down easythey let you run wild
tragedy's child
geranium nose
drunk as a car crash
you are what you see
a world stark and free
you get misty before me
and then we spin around
and around
and all of the memories that cry in your night
spin around and around
and I catch on your thermals and fly like a kitejust let me down easy
just let me down easyyou can never go home
the sparrow has flown
the only one I have known
to remember to future
the prophecy's clear
tomorrow is here
with eyes overflowing
and so we spin around and around
and nothing is ever as sad as it seems
spinning round and around
with the starbreasted comic book girl of your dreams
