

# Sing My Song For You

Demi Lovato & Joe Jonas

Didn't know what to get you  
Ordinary just wouldn't do  
But I just found the perfect gift for you Now I got it already  
But its not wraped in red or green  
Come down and sit beside me  
Underneath the Christmas tree We've got mistletoe and fire light  
On this cold December night  
The snow outside will set the mood  
As I sing my song  
I hear church bells a ringing  
Carolers singing harmony with me now  
You are looking so lovely  
Oohh Even if the lights go out We've got mistletoe and fire light  
On this cold December night  
The snow outside will set the mood  
As I sing my song You're so beautiful  
I only hope you see what I see  
Every word is supposed to show how much you mean to me We've got mistletoe and fire light  
On this cold December night  
The snow outside will set the mood  
We've got mistletoe and fire light  
On this cold December night  
The snow outside will set the mood  
As I sing my song for you  
Sing my song  
Sing my song for you
