Getting Through

Emf

I'm too honest when I'm scared
When I first looked in I was young and caredThese are ways of getting throughI left my trust on the tail of youth
We were so unsure of the things we'd seenThese are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there tooI never learned to ask what's fair
It's just the words we use take us thereThese are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there tooI never touch fortune, I never regret
It's just a simple task to touch your depthsThese are ways of getting through
These are things I'd do for youThese are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there tooI never touch fortune, I never regret
It's just a simple task to touch your depths
And I'm always too honest when I'm scared
When I first looked in I was young and caredThese are ways of getting through
These are things I'd do for you
And ask me and ask me, I'll be there too
