Definition

Pomegranate

Change the definition of every word I know
Of every word I know
To this end, I'll be your accomplice
And never breathe a word of this
And you can forget
That we spoke or that we ever even met

We found the sharp edge

A subtle little wave
I can't think, I can't concentrate
The words they bend and they break
What I can safely say
There is nothing but distance between us
Stained by failure
We found the sharp edge, we found the sharp edge

We found the sharp edge
Change the definition of every word I know
Of every word I know
Of every word I know
