For A Good Time

Divinyls

That cheap little thing you drive
It's just called machinery
I'll make you come alive
You ought to be with me for a good time
I said life goes by so fast
So, baby, you might as well live
'Cause nothin's gonna last
I don't know nothing that I wouldn't give
For a good time
For a good time
For a good time
You better check your priorities
If I'm gonna be your girl
You gotta dress me with your degrees
'Cause, baby, God made the world for a good time, yeah
A woman and a man
Were made so perfectly
I am what I am
Baby, put your faith in me
For a good time
For a good time
For a good time
I'd like to watch your mouth
I'd like to take it south
The heart in my breast
Is beating me to death
This is a cruel town
I'll make you feel like a king
And when you lose your crown
All you gotta do is give me a ring
For a good time
For a good time
For a good time
Good time, for a good time
For a good time
For a good time
For a good time
For a good time
For a good time

Let's do it
For a good time
Let's do it
For a good time
Wanna good time
For a good time, honey
I wanna good time
All the time
For a good time
Let's do it a [inaudible]
