

Radiophonic

Pet Shop Boys

In the air
(Radiophonic)

In the air
(Radiophonic)

In the air The night was long, now the crowd has gone, there's sunlight on my bed

Feels like a radiophonic workshop's beaming straight into my head

It could make you weep, I can't get to sleep, there's ringing in my ears

Like a radiophonic workshop orchestrating all my stupid fears (Radiophonic)

I think I'm in love
(Radiophonic, radiophonic)

I think I'm in love
(Radiophonic) In the air My skin is itching, I'm totally twitching with the pounding in my head

Like a dud sub-sonic beat-box booming bass under the bed

My hands are shaking, my mind is aching with a feeling deep inside

That you've been staring, sending signals every time our paths collide (Radiophonic)

I think I'm in love
(Radiophonic, radiophonic)

I think I'm in love
(Radiophonic) I think I'm in love

In the air (Radiophonic)

I think I'm in love
(Radiophonic, radiophonic)

I think I'm in love
(Radiophonic) Think I'm in love

(Radiophonic)
