

Knights of the 21st Century

HammerFall

Words unspoken, sworn in secrecy
A burning flame for the ones who believe
The prophecy Revelations from the sun as of the moon
In seven nights we became history
The prophecy On a cold dark night
We set our sails to search for land so far away
Searching for the truth There's a howl in the wind
On this mystic trail of water we sail on
The source of youth And the storm breaks loose on the seven seas
Tag on the signs on the mounting sun Northern light is shining on for us
Breaking the ice in search for tomorrow
Setting the sails into the future
Leave all your fears and your sorrows From the mountain side
Came a twisted wind, it brought us new insight
Whispering these words Come in the midst you'll see
Said a voice, I thought it was the prophecy
The secrecy unheard And on the violent sea there's tranquility
We saw the signs on the mountain side Northern light is shining on for us
Breaking the ice in search for tomorrow
Setting the sails into the future
Leave all your fears and your sorrows A secret passage never to be found
In front of us a delusion of sight
The prophecy From the mountains and the rivers down below
A silent breeze, there's a wail in the wind
The prophecy We've come from a land so far away
We bow down to the words you pray
Storming down the mountain side
No place to go, no place to hide Here we stand under of cover the moonlight
Oh, the prophecy was bound to fail
Here we are, nowhere to be found
We're trapped in another world and the journey's just begun Ah, ah, ah
