Not Sorry

Guttural Riot

Vulgar, vile and obscene, a loud mouthed punk reviving the scene, I'm feeling mean, I'm coming hard, a wild child from the very start! Nightmare of society, fighting autotune and Mtv, politicians, celebrities wanna tell you what to do wanna tell you what to think, won't waste my time tryin to be someone else, speak my mind stay true to myself

Got one life better make it count, doin what I wanna cause you know I gotta, lead the pack I'm standing out, yeah you know I'm gonna always do what I wanna, got no time for standing still, doin what I wanna cause you know I gotta, keepin it real and I always will! That's right!

When I have a dream I always chase it, don't dwell on the past cause I can't erase it, won't slow down or be complacent, when there's a problem I always face it! I roll on stronger then most won't break down and I don't fold I got my friends and I got my fam and we got each others back till the very end. Yo Gunther, bring it back!

Got one life better make it count, doin what I wanna cause you know I gotta, lead the pack I'm standing out, yeah you know I'm gonna always do what I wanna, got no time for standing still, doin what I wanna cause you know I gotta, keepin it real and I always will! That's right!

Don't care if you like me, don't care if you hate me and if I fall, I'll go down fighting!

Got one life better make it count, doin what I wanna cause you know I gotta, lead the pack I'm standing out, yeah you know I'm gonna always do what I wanna, got no time for standing still, doin what I wanna cause you know I gotta, keepin it real and I always will! That's right!
