Get It Together

Kenny Wayne Shepherd

You see the people sleeping out on the streets
Ain't got no food, got no shoes on their feet
And I'm walking forward to the back of the beat, oh yeahShe's got an angel painted on her arm
Don't know the difference from right and wrong
I wish I could help her but I'm singing my songCan we get it together before we fall apart
Let's get it together, get it together
Oh, get it together
Gonna get it together, let's get it together
Yeah, get it togetherIt's come, it's come along
It's come a long long way and I still ain't got there
Oh now, oh baby now, what we gonna do to turn it all aroundI'm looking at you, you're looking at me
It's going down, what's it gonna be
Oh, take time to rearrange, nothing's gonna changeGet it together before we fall apart
Get it together before we fall apart
Get it together, can we get it together?
Will we get it together before we fall apart?Let's get it together, get it together
Get it together
Gotta get it together, you gonna get it together
Yeah, get it togetherOoh, gonna get it together, you gotta get together
Ooh, get it together
[Incomprehensible] you get it together
