

Got Dynamite (Jorge Duran Remix)

Demi Lovato

I can't take your hand
And lead you to the water
I can't make you feel
What you don't feel but you know you wanna
Find out how to crack me
Log in try to hack meUnderneath the surface
There so much you need to know
And you might feel like your drowning
And that's what I need to let goTell me what you've got to break down the walls
You just might need dynamite
Tell me what you've got to break down the walls
Kick senseless my defenses
Tell me what your gonna do
I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamiteGot dynamite?I can't paint this picture
Just so you can hang itI can't wait
For you to understand
If you just don't get itFind out how to crack me
Log in try to hack me
Underneath the surface
There is so much you need to know
And you might feel like your drowning
But that's what I need to let goTell me what you've got to break down the walls
You just might need dynamite
Tell me what you've got to break down the walls
Kick senseless my defenses
Tell me what your gonna do
I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamiteWhen the walls come crashing down
I hope you're standing right in front of me
Where my past lies all around
Cause all you need to save me is to intervene
And make the walls come crashing downGot dynamite!Tell me what you've got to break down the walls
You just might need dynamite
Tell me what you've got to break down the walls
Kick senseless my defenses
Tell me what your gonna do

I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamite I got dynamite
I got dynamite
