

I Dream of Wires (Live 1980)

Gary Numan

I am the final silence
The last electrician alive
And they called me the Sparkle
I was the best, I worked them all New ways, new ways
I dream of wires We opened doors by thinking
We went to sleep by dialing 0
We drove to work by front seat
I plugged my wife in just for show New ways, new ways
I dream of wires So I press C for comfort
I dream of wires, the old days New ways, new ways
I dream of wires I am the final silence
The last electrician alive
And they called me the Sparkle
I was the best, I worked them all New ways, new ways
I dream of wires
