

Sing Like Me

Chris Brown

I gotta her singing
I gotta her singing
I gotta her singing
I gotta her singing, ohh
I gotta her singing, ohh
I gotta her singing, ohh
I gotta her singing, ohh Soon as I step out the whip they spot me
Girls snapping pictures like the paparazzi
So many different type of women I'm in to
And I can take them all with me is my only issue I wanna leave out of here take'm back to the crib
and show them how to do the cho-cha
hit it like a so-sa
I wanna leave out of her take em back to the crib
Cause they know what I'm thinking they look better naked
So many ladies, up in this club that I can choose from
and they all look amazing
That's why its so hard to just pick one When I get them off to the room
We ain't playing by no rules
And girl singing melodies
And it sounding like your favorite song playing on the radio and
Can't get enough of me
Gotta a girl singing like me
Had a girl singing like me
Gotta a girl singing like me
Had a girl singing like me All this bottle popping got me feeling nicely
Leaving by myself is highly unlikely
Looking for a right now don't need no wifey
Settling down with one chick that ain't even like me So many women in the atmosphere
Gotta leave with at least 3 in a pair
The look in they eyes tellin me that they want it
But don't like it that much to put a ring on it So many ladies up in this club that I can choose from
And they all look amazing
That's why its so hard to just pick one When I get them off to the room
we ain't playing by no rules and
Girls singing melodies
And it sounding like your favorite song
Playing on the radio and
Can't get enough of me
Gotta girl singing like me

Had a girl singing like me
Gotta a girl singing like me
Had a girl singing like me When I'm whisperin in your ear
Know I got you listening baby
I know you liking what you hear
Now lets leave up out of here baby
When I'm whisperin in your ear
Know i got you listening baby
That's when I put my hands on you
Girl I'm gonna drive your body crazy. When I get them off to the room
We ain't playing by no rules and
Girls singing melodies
And it sounding like your favorite song playing on the radio and
Can't get enough of me
Gotta a girl singing like me
Had a girl singing like me
Gotta a girl singing like me
Had a girl singing like me When I get them off to the room
We ain't playing by no rules and
Girls singing melodies
And its sounding like your favorite song playing on the radio and
Can't get enough of me
Had a girl singing like me
Had a girl singing like me
Had a girl singing like me
Had a girl singing like me I got her singing like me
(with no autotunes)
I got her singing like me
(when I get her up in my room)
Girl singing like me
(make you feel like my boo)
I got her singing like
(make ya do what it do)
I got her singing like me
(oh give it to me baby)
I got her singing like me
Girl singing like me
(oh give it to me baby)
yeah yeah When I get you off to my room
baby baby
When i get you off to my room
baby oh yeah yeah I gotta her singing
I gotta her singing
