

Diabolic Plot

Holy Moses

[music: Andy Klassen]

[words: Sabina Classen] Jump in the fire

You have the desire

They bring you to the knees

Within your only dream - the sleaze

What do you feel

Is it all for real

The corporate hand of fate

Drives me full of hate Pay - you pay to play

Play - you play to win

Win - you win the way

On the Strip today Problems all around

A solution must be found

Do not get caught

In this diabolic plot

A strong will to win

A killer's drive within

But one way to act

Stabbing others in the back
