# Softly Over

## Yaz

It's over, there's nothing more to say
Silent comes the night time, ends another summers day
I can just remember or is this the dream that never goes away?Understand me, I'm calling
Understand me now, can't you hear me call?
Understand me, I'm calling
Understand me now, can't you hear me call?Night time, surely it's a lie
No one ever told me, I just let the chance go by
Wishing there was time enough, you tell me there's no time
But I can tryUnderstand me, I'm calling
Understand me now, can't you hear me call?
Understand me, I'm calling
Understand me now, can't you hear me call?Speak now without the summer light
All the words I should have spoken when you held me tight
Still I'll keep on calling till the morning ends another lonely nightUnderstand me, I'm calling
Understand me now, can't you hear me call?
Understand me, I'm calling
Understand me now, can't you hear me call?Understand me, I'm calling
Understand me now, can't you hear me call?
Understand me, I'm calling
Understand me now, can't you hear me call?Understand me, I'm calling
Understand me now, can't you hear me call?
Understand me, I'm calling
Understand me now, can't you hear me call?
