

# Softly Over

Yaz

It's over, there's nothing more to say  
Silent comes the night time, ends another summers day  
I can just remember or is this the dream that never goes away? Understand me, I'm calling  
Understand me now, can't you hear me call?  
Understand me, I'm calling  
Understand me now, can't you hear me call? Night time, surely it's a lie  
No one ever told me, I just let the chance go by  
Wishing there was time enough, you tell me there's no time  
But I can try Understand me, I'm calling  
Understand me now, can't you hear me call?  
Understand me, I'm calling  
Understand me now, can't you hear me call? Speak now without the summer light  
All the words I should have spoken when you held me tight  
Still I'll keep on calling till the morning ends another lonely night Understand me, I'm calling  
Understand me now, can't you hear me call?  
Understand me, I'm calling  
Understand me now, can't you hear me call? Understand me, I'm calling  
Understand me now, can't you hear me call?  
Understand me, I'm calling  
Understand me now, can't you hear me call? Understand me, I'm calling  
Understand me now, can't you hear me call?  
Understand me, I'm calling  
Understand me now, can't you hear me call?
