

# Next Best Superstar

Melanie C

Sign a name, sign away every hour  
Everyday you're living your dream  
Play the game, take the blame  
For the power and the fame You're living your dream  
Sell your life, sell your soul  
Telling everyone you know  
You're living your dream And you know that you're good  
'Cause they told you you could be  
The next best superstar  
And you know you can sing  
And you'll do anything to be  
The next best superstar  
You're the next best superstar Make a joke, do the show  
Where does all the money go?  
You're living your dream  
Crack a smile in denial  
Throw your morals on the fire You're living your dream  
Sell your life, sell your soul  
Telling everyone you know  
You're living your dream And you know that you're good  
'Cause they told you you could be  
The next best superstar  
And you know you can sing  
And you'll do anything to be  
The next best superstar  
You're the next best superstar Now you're broken  
And how they brought you down  
So now you're crawling out And you know that you're good  
'Cause they told you you could be  
The next best superstar  
And you know you can sing  
And you'll do anything to be  
The next best superstar And you know that you're good  
'Cause they told you you could be  
The next best superstar  
And you know you can sing  
And you'll do anything to be  
The next best superstar  
The next best superstar

The next best superstar
