Time

Shawn Mullins

I said something wrong it never fails
It kept us up all night
But time has her own way of showing today
In a different lightFriends come and they go, everyone knows
That's the way it goes
But time has her own way of showing today
In a different lightDreams, sometimes come true like mine of you
When you love me like you do
Time has her own means to show us our dreams
And I'll dream of you
