

# Hero

## Lucky Dube

Do you see the smiles on their faces  
After you have done what you do best?  
Do you see satisfaction on their faces  
After you have blessed them with your gift?  
You don't think it's much but to them it means the world  
They wake up in the morning and wish you were there  
Don't have to lie to gain their trust  
You have never won a Nobel prize, they've never seen you on the TV  
Your little contribution makes their lives a little bit better every day  
You are a hero, you are a hero  
You are a hero, you are a hero  
You are a hero, you are a hero  
You are a hero, you are a hero  
Big it up, big it up for the fireman  
  
Big it up, big it up for the street cleaners  
Big it up for the man and the woman  
Who take care of abandoned children  
Big it up, big it up for the grandmothers  
Who are left to take care of the children  
Big it up, big it up  
You are a hero, you are a hero  
You are a hero, you are a hero  
You are a hero, you are a hero  
Hero, hero  
You are a hero, you are a hero  
You are a hero, you are a hero  
You are a hero, you are a hero
