

Superfunk

Truckfighters

You gave me something you don't know

If it's good or just evil Oh lord

No such thing has ever happen before

Dear lord

But if we're look inside the idiots door

a superfunk will hit you back to the floor There must be a big imperfection

is it his or his satisfaction

Oh lord

No such thing has ever happen before

Dear lord

But if we're look inside the idiots door

a superfunk will hit you back to the floor

He will happen til they say no more

cut of his extensive powers now
